

Enapter publishes SASB data for the first time

Berlin, October 22nd 2021/ 09:36; Enapter AG (ISIN:DE000A255G02) publishes for the first time a SASB Report (Sustainability Accounting Standards Board). With this report, Enapter makes key figures from the area of environmental, social and governance (ESG) publicly available according to the SASB standard and methodology. The report contains information on the results of the company's activities in the field of sustainability.

Enapter's SASB report is available for download on the company's website in the "Investor Relations" section: <https://enapterag.de/nachhaltigkeitsberichte/>

About Enapter

Enapter is an award-winning energy technology company producing highly efficient hydrogen generators to replace fossil fuels. Its patented and proven Anion Exchange Membrane (AEM) technology allows for the mass production of low-cost, plug-&-play electrolyzers for green hydrogen at any scale. The modular systems are used in 40 countries in sectors like energy, mobility, industry, heating and telecommunications. Enapter has offices in Italy, Germany, Thailand and Russia.
